

Work on multi-level car parking facility to be completed soon

Excelsior Correspondent
SRINAGAR, Mar 23: Work on first semi automatic multilevel car

Work space on multi-level car parking at Srinagar.

parking facility in the State, which is being constructed in the erstwhile KMDA at Lalchowk, Srinagar, is nearing completion and expected to be completed soon and shall be operational after the test trials which are underway at present.

This hi-tech parking facility in city centre is being constructed by JKERA under its ongoing JKUS-DIP (Jammu and Kashmir Urban Sector Development Investment Programme) funded by Asian Development Bank.

Rs 27.15 crore project includes the multilevel (5- levels) puzzle type mechanized semi automatic car parking facility which will accommodate 288 light motor vehicles and provide much needed parking facility in one of busiest commercial places in summer capital. The facility comprises of 4 bays in 5 levels with each having parking space for 72 light motor vehicles. The facility is spread over an area of 1545 sqm which also includes three storeyed commercial complex comprising of office space and public toilet.

The parking facility with entry from Maulana Azad road and exit from Exchange Road will pro-

vide easy and safe parking for vehicle owners who will have to just place their vehicle over the automated pellet and vehicle will be automatically placed in the available vacant parking slot and similarly will be retrieved back from the slot and placed at the automated pellet with whole process taking 2 to 2.5 minutes.

The process will be undertaken with the help of imported HID (Human Interface Device) called PLC (Programmed Logic Control Unit) which will be operated by trained engineers and technicians of M/s Simplex Engineers Private Limited, who will operate the parking facility for the period of three years as per provisions of the contract and will simultaneously train and build capacities of personnel from SDA (Srinagar Development Authority) who will operate the facility after expiry of operation and maintenance period with the contractor.

JK to witness history as multi-level car parking all set to be commissioned in Srinagar

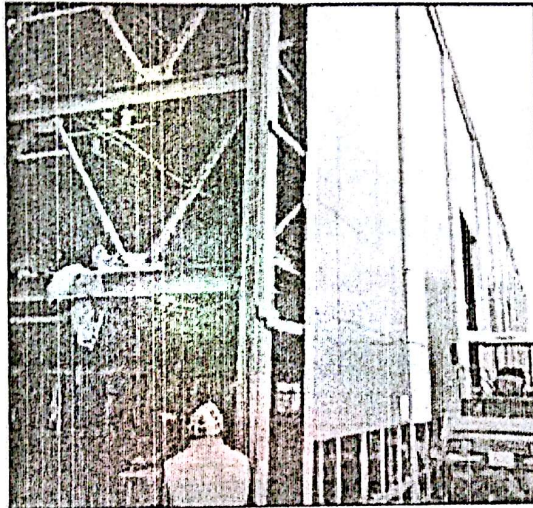

Jehangir Rashid

Early Times Report

SRINAGAR, Mar 24: History is all set to be made in the state as Srinagar is all set to get a semi automatic multi-level parking facility. The facility would be thrown open to the public once the test trials are completed.

The work on the first semi automatic multi-level car parking facility in the state which is being constructed in the erstwhile Kashmir Motor Drivers Association (KMDA) bus stand at Lal Chowk in the summer capital is nearing completion. The construction work is expected to be completed soon and shall be operational after the test trials which are underway at present.

"This hi-tech parking facility in city centre is being constructed by Jammu & Kashmir Economic Reconstruction Agency (ERA)

PEEPING TO LANDMARK: A view of multi level car parking at Bus Stand Lal Chowk which is all set to be commissioned soon

under its ongoing JKUSDIP (Jammu and Kashmir Urban Sector Development Investment Programme) funded by

Asian Development Bank," said Muhammad Azhar, Public Relations Officer, J&K ERA.

Azhar said that Rs 27.15

crore project includes the multilevel (5-levels) puzzle type mechanized semi automatic car parking facility. He said that the multi-level parking facility will accommodate 288 light motor vehicles and provide much needed parking facility in one of busiest commercial places in summer capital.

"The facility comprises of four bays in five levels with each having parking space for 72 light motor vehicles. The facility is spread over an area of 1545 square metres which also includes three storied commercial complex comprising of office space and public toilet," said J&K ERA PRO.

The parking facility with entry from Maulana Azad Road and exit from Exchange Road will provide easy and safe parking for vehicle owners who will have to just place their vehicle over the automated pellet and vehicle will be

automatically placed in the available vacant parking slot. Similarly the vehicle will be retrieved back from the slot and placed at the automated pellet with whole process taking two to two and a half minutes.

The process will be undertaken with the help of imported HID (Human Interface Device) called PLC (Programmed Logic Control Unit). This whole process will be operated by trained engineers and technicians of Simplex Engineers Private Limited who will operate the parking facility for the period of three years.

As per the provisions of the contract the company will simultaneously train and build capacities of personnel from SDA (Srinagar Development Authority) that will operate the facility after expiry of operation and maintenance period with the contractor.

Valley's first automatic car parking to open soon

TRIBUNE NEWS SERVICE

SRINAGAR, MARCH 23

Test trials have been conducted at the Kashmir valley's first semi-automatic multi-level car parking facility and it will be thrown open in the coming days.

"The work on the first semi-automatic multi-level car parking facility in the state which is being constructed in the erstwhile KMDA at Lal Chowk, Srinagar is nearing completion

and expected to be completed soon. It shall be operational after the test trials which are underway," said Mohammad Azhar, public relations officer, J&K Economic Reconstruction Agency (JKERA).

This hi-tech parking facility in the city centre is being constructed by the JKERA under its ongoing Jammu and Kashmir Urban Sector Development Investment Programme (JKUSIP), funded by the Asian

Development Bank.

Azhar said the Rs 27.15 cr project includes the multi-level (five-levels) puzzle type mechanised semi-automatic car parking facility, which would accommodate 288 light motor vehicles and provide much-needed parking facility in one of busiest commercial places of the city. He said the facility comprised of four bays in five levels with each having parking space for 72 light motor vehicles. The facility is spread over an

area of 1,545 sqm which also includes three-storeyed commercial complex comprising office space and public toilets.

He said the parking facility with entry from Maulana Azad road and exit from Exchange Road would provide an easy and safe parking for vehicle owners who would have to just place their vehicle over the automated pellet and vehicle would be automatically placed in the available vacant parking slot.

Multilevel car parking to be functional soon

SRINAGAR: Work on the first semi-automatic multilevel car parking facility in the state, in the erstwhile KMDA bus stand at Lalchowk, Srinagar is nearing completion and is expected to be completed, Jammu and Kashmir Economic Reconstruction Agency has said.

In statement issued here the ERA said test trials were underway at the parking.

This hi-tech parking facility in city centre is being constructed by JKERA under its ongoing JKUS-DIP (Jammu and Kashmir Urban

Sector Development Investment Programme) funded by Asian Development Bank.

Costing Rs 27.15 crore the project includes the multilevel (5-levels) puzzle type mechanized semi automatic car parking facility which will accommodate 288 light motor vehicles and provide much needed parking facility in one of busiest commercial places in summer capital. The facility comprises of 4 bays in 5 levels with each having parking space for 72 light motor vehicles. The facility is spread over an area of 1545 sqm

which also includes three storeyed commercial complex comprising of office space and public toilet.

The parking facility with entry from Maulana Azad road and exit from exchange road will provide easy and safe parking for vehicle owners who will have to just place their vehicle over the automated pellet and vehicle will be automatically placed in the available vacant parking slot and similarly will be retrieved back from the slot and placed at the automated pellet with whole process taking 2 to 2.5 minutes.

Lal Chowk to get hi-tech multi-level parking soon

RISING KASHMIR NEWS

Srinagar: The over-crowded city centre, Lal Chowk, is all set to get its first semi-automatic multi-level parking soon as the construction work on it is nearing completion and test trials are underway.

In a statement, Public Relations Officer (PRO) of J&K ERA on Thursday said hi-tech parking facility is being constructed by JKERA under its ongoing Jammu and Kashmir Urban Sector Development Investment Programme (JKUSDIP) funded by Asian Development Bank.

"Rs 27.15 crore project includes the multilevel (5-levels) puzzle type mechanized semi automatic car parking facility which will accommodate 288 light motor vehicles and provide much needed parking facility in one of busiest commercial places in summer capital. The facility comprises of 4 bays in 5 levels with each having parking space for 72 light motor vehicles. The facility is spread over an area of 1545 sqm which also includes three storied commercial complex comprising of office space and pub-

lic toilet," he said.

The parking facility with entry from Maulana Azad road and exit from exchangeroad will provide easy and safe parking for vehicle owners who will have to just place their vehicle over the automated pellet and vehicle will be automatically placed in the available vacant parking slot and similarly will be retrieved back from the slot and placed at the automated pellet with whole process taking 2 to 2.5 minutes, he said.

"The process will be undertaken with the help of imported HID (Human Interface Device) called PLC (Programmed Logic Control Unit) which will be operated by trained engineers and technicians of M/S Simplex engineers private limited who will operate the parking facility for the period of three years as per provisions of the contract," he said adding "simultaneously, they will train and build capacities of personnel from SDA (Srinagar Development Authority) who will operate the facility after expiry of operation and maintenance period with the contractor."
